

# CHEMO ROOM

WHITEHORSE, YUKON

# WHITEHORSE GENERAL HOSPITAL

In 2001, Kobayashi + Zedda Architects donated their time to fundraise and project manage the new chemotherapy room at Whitehorse General Hospital. The \$100,000 budget was raised entirely by KZA staff through donation and the volunteer labour of local contractors. The room was completed in only 4 months and features a bright colour scheme to avoid an institutional appearance.
