

SHIPYARDS HERITAGE VILLAGE MASTER PLAN

WHITEHORSE, YUKON

The City of Whitehorse contracted a team led by Kobayashi + Zedda and Midnight Sun Arts to develop a heritage conservation plan to guide development of a historic interpretive area in Shipyard's Park using remaining historic structures. The master plan study included extensive public consultation toward the preparation of specific development options, design guidelines for structures and the development of historic themes and stories to guide interpretive approaches. The final development plan was adopted by the City of Whitehorse in 2002 and implemented between 2004 and 2008.
